

# Discrimination Is Out

---

We need to remove any form of discrimination that we, or former generations have built in the Church.

If the Church is not seen to go out into the world with what it has of the kingdom of God, it will have nothing left. History should have taught us this lesson, and we do not always have the luxury of waiting for a crisis to re-learn it.

Let's pre-empt the next crisis, and make this our number one priority now, while the kingdom is still among us.
